

Post Show Report

Held inside **NexTech Week TOKYO 2022**

3rd **AI EXPO TOKYO Autumn**

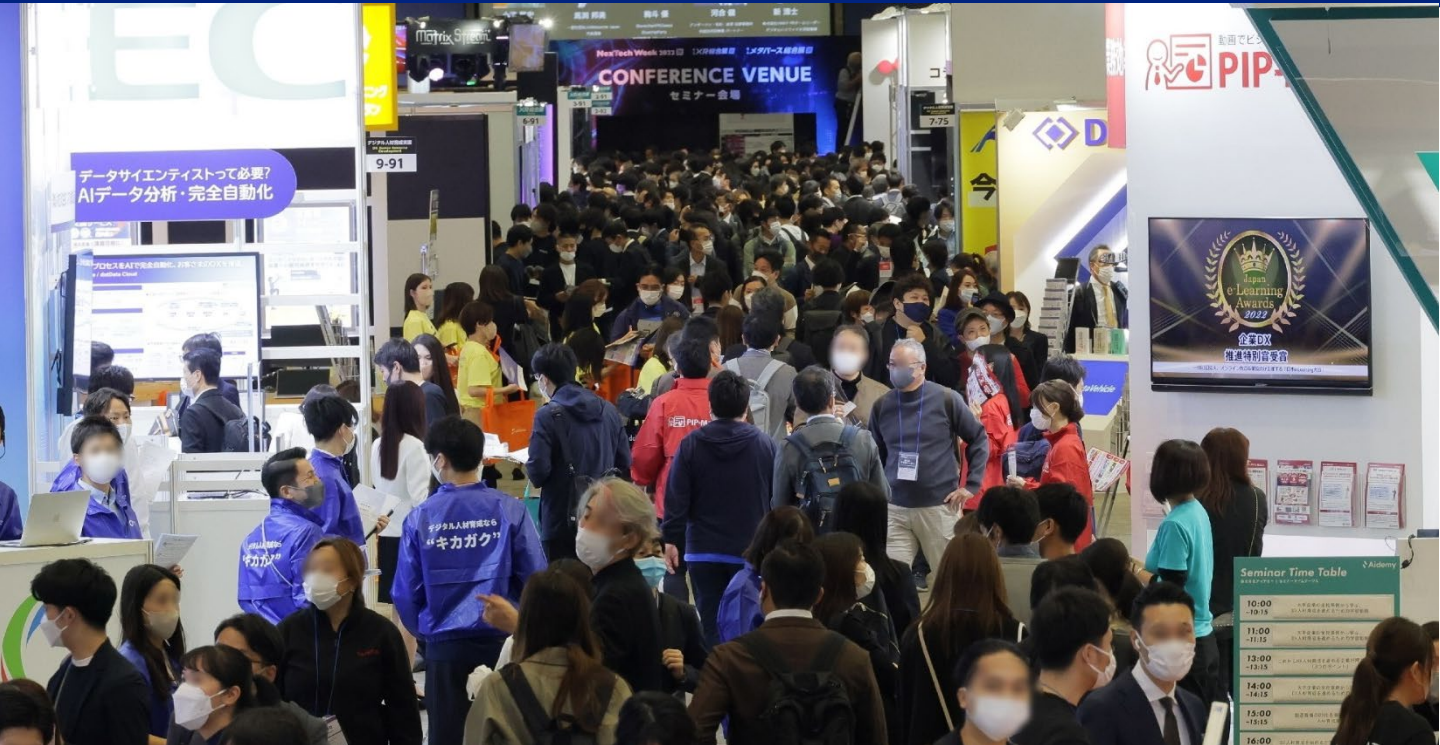

Concurrent Shows:

3rd **BLOCKCHAIN EXPO TOKYO [Autumn]**, 3rd **QUANTUM COMPUTING EXPO TOKYO [Autumn]**
1st **DX HUMAN RESOURCE DEVELOPMENT EXPO [Autumn]**

Oct 26 (Wed) – 28 (Fri), 2022 at Makuhari Messe, Japan

Organised by: RX Japan Ltd.

Supported by: The Japanese Society for Artificial Intelligence / Japan Deep Learning Association

The 2022 autumn edition concluded with great success!

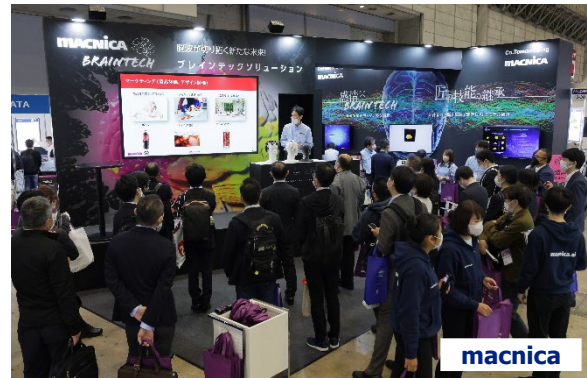

RX Japan, with the support of the Japanese Society for Artificial Intelligence / Japan Deep Learning Association, held the 3rd AI EXPO TOKYO [Autumn] last Oct. 26-28, 2022, at Makuhari Messe, Japan. Thanks to the reopening of Japan's border, many international exhibitors have returned to the show. The 3rd AI EXPO TOKYO [Autumn], together with its concurrent shows, welcomed a total of 254* exhibitors, 34,265* visitors, 11,137* conference attendees, and 158* press members.

■ AI EXPO TOKYO 2022 [Autumn] Exhibition Outline

| | |
|------------------|---|
| Exhibition Title | AI EXPO TOKYO 2022 [Autumn] |
| Dates | Oct 26 [Wed] - 28 [Fri], 2022 |
| Venue | Makuhari Messe, Japan |
| Organised by | RX Japan Ltd. |
| Supported by | The Japanese Society for Artificial Intelligence Japan Deep Learning Association |

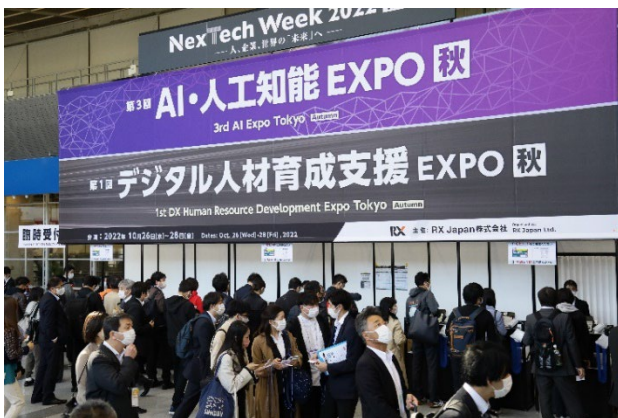

*Numbers for concurrent shows are included.

■ Welcomed world's leading companies

The 3rd AI EXPO TOKYO [Autumn] attracted 89 exhibitors in total. Over the course of the three-day event, every exhibitor demonstrated applications and gave presentations of the newest cutting-edge technologies and services. Numerous people expressed interest in AI and even tried out the on-site services and demos.

■ Increased Double! Gathered numerous visitors

34,265 visitors graced the event of NexTech Week TOKYO 2022, which includes the 3rd AI EXPO TOKYO [Autumn]. This is a huge jump compared to last year's autumn edition wherein the total number of visitors is 16,428. All in all, visitor counts increased by 208%. This shows the demand for AI technologies is becoming even higher in the Japanese market.

Rich concurrently-held conference opened a lot of insights

The event gathered industry leaders and held different programs that discussed Artificial Intelligence for three days. The sessions covered themes such as 3D scanning with deep learning and the metaverse, how AI will change future consumer behavior, and realization of a carbon-neutral society through DX promotion. Speakers were professionals that came from various companies globally.

Excerpts of the conference held at AI EXPO TOKYO [AUTUMN]

Future consumer behavior will be changed by AI

Appier Group Inc.
CEO and Co-Founder
Qihan Yu

Current Location and Future Concept of Robot xAI

Yaskawa Electric Corporation
Representative Director, Senior Managing Executive
Officer, General Manager of Robot Division
Masahiro Ogawa

connectome.design Corporation
President & CEO
Satoshi Sato

"Making the real world computable" 3D scanning with deep learning and the meta verse

Preferred Networks Inc.

VP of Consumer Products

Masaaki Fukuda

AI Basic Course ~Basic Knowledge for AI Utilization and Current Location of Social Implementation~

The Japanese Society for Artificial Intelligence

Chairman/Professor, Department of Medical Informatics, School of Medicine, Shimane University

Shusaku Tsumoto

Toward the realization of a carbon-neutral society through DX promotion

Mitsubishi Heavy Industries, Ltd.

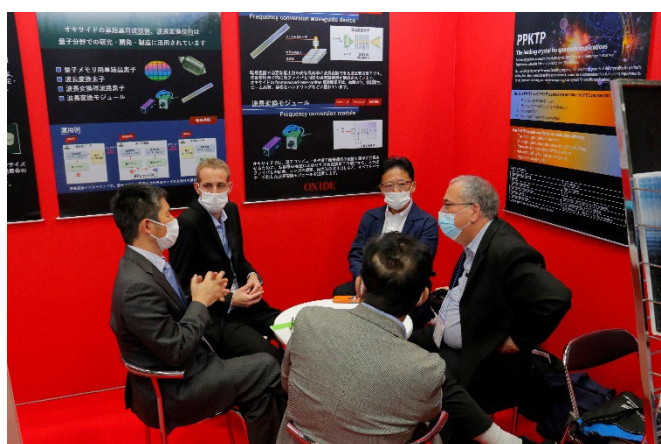

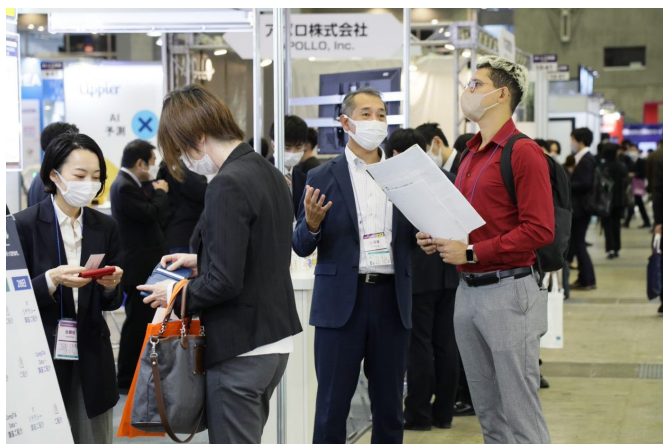

Growth Promotion Office, Business Development

Department, Chief Project Supervisor

Tomoyuki Enomoto

Followed strict safety measures

Thorough Measures Against COVID-19

Mandatory Mask Wearing

Temperature Measurement

Medical Staff Onsite

Must Sanitise Hands Before Entry

Good Indoor Ventilation

Japan's border reopening does not mean there will be no more protocols. AI EXPO TOKYO made sure to follow safety guidelines implemented by the government, municipalities, and the exhibition industry association. This includes mandatory mask-wearing, thermal screening, physical distancing, etc. to ensure every on-site exhibitor and visitor could enjoy the show safely.

■ What's next?

Japan's largest* exhibition for AI technology will be back next year in spring. The event will continue to welcome companies in exhibiting their technologies to visitors from various industries. AI EXPO TOKYO will be held together with its concurrent shows such as the BLOCKCHAIN EXPO TOKYO, QUANTUM COMPUTING EXPO TOKYO, and DX HUMAN RESOURCE DEVELOPMENT EXPO under NexTech Week Tokyo.

Held inside **NexTech Week TOKYO 2023**

7th **AI EXPO TOKYO** **Spring**
